

CALL FOR PAPERS

VoteID 2015

The Fifth International Conference on E-voting and Identity
2-4 September 2015, Bern, Switzerland

<http://www.voteid15.org>

Important Dates

Submission deadline: April 13, 2015 (midnight CET)

Notification: May 26, 2015

Camera-ready version: June 8, 2015

System demo session: 2 September, morning

Conference: 2-4 September 2015, midday to afternoon

Motivation and Scope

Electronic voting is a very active research area covering a broad range of issues, from computer security and cryptographic issues to human psychology and legal issues. The aim of VoteID is to bring together researchers and practitioners from academia, industry and governmental institutions, all working on e-voting systems. The scope covers all aspects of electronic voting systems, including, but not limited to:

- * design and evaluation of e-voting systems
- * security requirements and formal analysis
- * voter authentication and identity management
- * cryptographic voting schemes
- * verifiable election technologies
- * methods for reconciling voter identification with vote privacy
- * usability and accessibility
- * deployment and lifecycle concerns
- * implementation issues and trade-offs
- * legal, political and other interdisciplinary issues

The proceedings of VoteID 2015 will be published as part of the Springer LNCS series. The proceedings of VoteID 2007, VoteID 2009, VoteID 2011, and VoteID 2013 appeared as volumes 4896, 5767, 7187, and 7985 in Springer LNCS.

Paper Submission Guidelines

Authors are invited to submit papers describing original work. Case

studies of deployed systems are welcomed, so long as there is sufficient originality and rigour in their design or analysis to constitute scientific research. Submissions must not substantially duplicate work that any of the authors has published elsewhere or has submitted in parallel to any other conference or workshop with proceedings. Submissions should be anonymous, with no author names, affiliations, acknowledgement or obvious references. Each submission should have a contact author who should provide full contact information. At least one author of each accepted paper will be required to present the work at the conference. Papers must be formatted in LaTeX, using the Springer LNCS LaTeX style, and submitted as PDF files. Please check at

* <http://www.voteid15.org/paper-submission/>

for style and formatting guidelines. The length of the submitted paper should not exceed 15 pages, excluding the bibliography and appendices, using the Springer LNCS style.

Voting System Demonstrations

We also invite demonstrations of electronic voting systems, to be presented in an open session on Wednesday morning. Participation is open to all, but we request a one-page summary by 1st of August describing the system's requirements and properties, such as:

- * whether the system is intended for remote or attendance voting
- * which types of elections it accommodates
- * whether it addresses the needs of voters with disabilities
- * what sort of verifiability it provides
- * the extent to which it guarantees vote privacy
- * whether it has been deployed in a real election
- * where to go for more information

Organisation

General Chair:

- * Rolf Haenni (Bern University of Applied Sciences)

Program Chairs:

- * Reto E. Koenig (Bern University of Applied Sciences)
- * Douglas Wikström (KTH Royal Inst. of Technology, Stockholm)

Program Committee:

- * Michael Alvarez (California Institute of Technology)
- * Roberto Araujo (Universidade Federal do Pará)
- * David Bernhard (University of Bristol)
- * David Bismark (Votato)
- * Jeremy Clark (Concordia University)
- * Chris Culnane (University of Surrey)
- * Eric Dubuis (Bern University of Applied Sciences)
- * Aleks Essex (University of Waterloo)
- * J. Paul Gibson (Telecom & Management SudParis)
- * Kristian Gjøsteen (Norwegian Univ. of Science and Technology)
- * Rajeev Gore (The Australian National University)
- * Jens Groth (University College London)
- * Hugo Jonker (University of Luxembourg)
- * Robert Krimmer (Tallinn University of Technology)
- * Ralf Kuesters (University of Trier)
- * Tal Moran (IDC Herzliya)
- * Stephan Neumann (TU Darmstadt)
- * Olivier Pereira (Universite catholique de Louvain)
- * Peter Y. A. Ryan (University of Luxembourg)
- * Steve Schneider (University of Surrey)
- * Berry Schoenmakers (Eindhoven University of Technology)
- * Carsten Schuermann (IT University of Copenhagen)
- * Philip Stark (University of California, Berkeley)
- * Vanessa Teague (The University of Melbourne)
- * Melanie Volkamer (TU Darmstadt)
- * Poorvi Vora (The George Washington University)
- * Roland Wen (The University of New South Wales)
- * Filip Zagorski (Wroclaw University of Technology)
- * Dimitrios Zissis (University of the Aegean)

Local Organisation:

Eric Dubuis, Rolf Haenni, Severin Hauser, Reto E. Koenig,
Philipp Locher (Bern University of Applied Sciences)
